Frequently Asked Questions about your Critical Illness Protection Plan (CIPP)

Am I eligible for coverage?	You are eligible if you are working a minimum of 30 hours per week and considered benefit eligible by your employer.
What does Critical Illness Coverage provide me?	Critical Illness coverage provides protection against the expense of serious medical conditions.
Who pays for my Critical Illness coverage?	Your employer has made CIPP coverage available to all eligible employees on a voluntary basis, which means you pay your premiums if you elect the coverage.
When does my coverage go into effect?	You must be Actively at Work with your employer, as defined in your plan, on the date your coverage is scheduled to take effect. Otherwise, your coverage takes effect when you return to Active Work.
How do I cover a newborn child?	Newborn children are covered from the moment of live birth for the first 31 days. You would need to notify us within 31 days of the birth if you want to enroll that child, regardless of whether there are existing dependent children covered.
Can I receive a benefit for more than one of the covered conditions?	Each Covered Condition is payable at least one time for dates of diagnoses that occur while coverage is in force. Your Certificate of Coverage may require a separation period be met between the dates of diagnoses. <i>(Note: This is commonly referred to as additional occurrence.)</i>
If I have received a benefit for a covered condition (i.e., Heart Attack) and then get diagnosed again with that same condition, will another benefit be payable?	<p>You may be eligible for another benefit payment for the same Covered Condition. This is referred to as Reoccurrence Benefit, and certain Conditions are eligible.</p> <p>Reoccurrence allows you to receive a benefit when:</p> <ul style="list-style-type: none">• You are diagnosed for a covered condition we have already paid a benefit for;• The diagnosis date of the reoccurrence is at least 180 days following the previous date of diagnosis. <p>Coverage must be in force on the date the reoccurrence is diagnosed. If a diagnosis of a Child Only Covered Condition is made during pregnancy, would we be eligible to receive a benefit for that condition if I choose to cover them as a dependent?	Dependent Children are eligible for coverage from the moment of live birth. If the diagnosis occurs prior to birth, that condition would be payable provided the child survives to live birth and becomes insured as a dependent child.
I enrolled my 5 year old child, who was diagnosed at birth with one of the Child Only Covered conditions. Would we be eligible to receive a benefit for that condition?	For a condition to be payable, coverage must be in force on the date of diagnosis. Therefore, in this situation, because diagnosis was made prior to the coverage effective date, a benefit would not be payable.
