

## Accident Insurance

Today, active lifestyles in or out of the home may result in bumps, bruises and sometimes breaks. Getting the right treatment can be vital to recovery, but it can also be expensive. And if an accident keeps you away from work during recovery, the financial worries can grow quickly.

# Meet Daniel & Sandy

Daniel and Sandy are like most active couples; they enjoy the outdoors and a great adventure. They have seen their share of bumps, bruises and breaks. Sandy knows an accidental injury could happen to either of them. Most importantly, she worries about how they will pay for it.

Here is what weighs heavily on her mind:

- Major medical will only pay a portion of the expenses associated with injury treatments
- They have copays they are responsible for until they meet their deductible
- If they miss work because of an injury, they must cover the bills, rent/mortgage, groceries and their child's education
- If they need to seek treatment not available locally, they will have to pay for it

Daniel's story of injury and treatment turned into a happy ending, because he had supplemental Accident Insurance to help with expenses.

## CHOOSE

Daniel and Sandy choose benefits to help protect their family if they suffer an accidental injury.

## USE

Daniel was playing a pick-up game of basketball with his friends when he went up for a jump-shot and, on his way back down, twisted his foot and ruptured his Achilles tendon.

Here's Daniel's treatment path:

- Taken by ambulance to the emergency room
- Examined by a doctor and X-rays were taken
- Underwent surgery to reattach the tendon
- Visited by his doctor and released after a one-day stay in the hospital
- Had to immobilize his ankle for 6 weeks
- Seen by the doctor during a follow-up visit and sent to physical therapy to strengthen his leg and improve his mobility

Daniel would go online after each of his treatments to file claims. The cash benefits were direct deposited into his bank account.

Daniel is back playing basketball and enjoying life.
