Flexible Spending Account

A healthcare FSA lets you use tax-free money to pay for eligible medical, dental, and vision expenses.[1] So you spend less on the healthcare you need. FSA paycheck deductions are tax-free too, which helps reduce your taxable income. The more you contribute, the more you save.

- Access annual contribution amount on day one.
- Pay for your spouse and dependents too.
- Plan ahead because FSA funds eventually expire.

Less tax. More paycheck.

Get $20 tax savings for every $100 you contribute.[2]

FSA Contribution Limit[3]

[1]FSAs are never taxed at a federal income tax level when used appropriately for eligible healthcare expenses. Also, most states recognize FSA funds as tax deductible with very few exceptions. Please consult a tax advisor regarding your state's specific rules. | [2]The example is for illustrative purposes only. Estimated savings are based on a maximum annual contribution and an assumed combined federal and state income tax bracket of 20%. Actual savings will depend on your contribution amount and taxable income and tax status. | [3]Contribution limit is accurate as of 10/22/24. Each fall the IRS updates the FSA contribution limits.
