

Finding a Network Dentist

Finding a Delta Dental network dentist is easy. More than 3 out of every 4 dentists nationwide participate in a Delta Dental network. In Iowa, more than 90 percent of dentists participate in a Delta Dental network. You can find a network dentist today by using the Dentist Search on our website or calling our automated phone system.

Provider Search

You can find a dentist online quickly and easily.

1. Go to www.deltadentalia.com and click the provider search link. Select “Find a Network Dentist” from the drop down menu.
2. To start your search, you can either enter the location where you want to locate network dentists (search by city/state or ZIP code), or search for a particular dentist or practice by name and ZIP code.
3. Results will automatically display by proximity and all Delta Dental networks the dentist participates in will be listed. If you want to change the distance, update your search by entering a new mile radius and select “Update”.
4. You also have the option to narrow your search based on the network that works best with your dental program. Your ID card will list which network your dental plan accesses. With Delta Dental PPOSM plans, you can use any dentist, but will save the most using a PPO network dentist. You will also likely save with a Premier network dentist since non-network dentists have not agreed to the Delta Dental allowed fees.
5. You can map network dentist locations and create a list of selected dentists, which can be printed, emailed or converted to a PDF.

**Any field marked with a red asterisk is a required field.*

Automated Phone System

You can also find a dentist through our automated phone system by calling 800-544-0718. Say “Dentist Directory” and follow the automated instructions.
