How can I help keep my identity safer?

No one intends to be unsafe online, but it's important to have tools that help you protect your devices, connection and identity. Chances are your personal info is already out there, making you more vulnerable to cybercrime.

Norton LifeLock Benefit Plans were created to help employees feel protected and confident in our connected world.

LifeLock Identity Alert™ System†

Everyone's identity is unique. We monitor† for fraudulent use of your Social Security number, name, address and date of birth in applications for credit and services. You will get alerts when a potential threat is detected. And it's backed by world-class service. Our dedicated specialists will work with you to resolve ID theft issues.

- **Credit Alerts / Social Security Number Alerts†**
- **Identity Verification Monitoring†§**

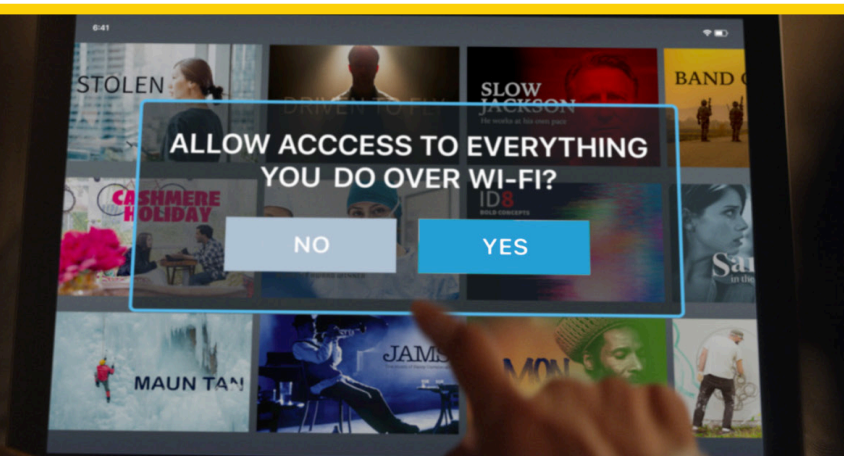

Dark Web Monitoring§

Identity thieves can buy or sell your personal information on hard-to-find dark web sites and forums. We patrol the dark web and notify you if we find your information.

- **Dark Web Monitoring – Password Combo List§**
- **Dark Web Monitoring – Gamer Tags§**

Social Media Monitoring

You can help keep your social media accounts safer with our new Social Media Monitoring* feature. We monitor the social media accounts that you have linked, and notify you if your account may be compromised or if we find potential risky links. We'll also help protect your children against cyber bullying on their social media feeds, and provide notifications of posts that may be sexually explicit, drug-related, violent, or hate speech.**

No one can prevent all identity theft or all cybercrime.

† The LifeLock alert network includes a variety of product features and data sources. Although it is very extensive, our network does not cover all transactions at all businesses, so you might not receive a LifeLock alert in every single case.

§ These features are not enabled upon enrollment. Member must take action to get their protection.

* Does not include monitoring of chats or direct messages.

** Our service may not identify all cyber bullying, explicit content or hate speech.

Your family's information is out there, too.

Kids tend to be less concerned with safety than their parents. It's why we include Norton Parental Control to help you manage your kids' activities online so they can explore, learn, and enjoy their connected world safely.[1]

Parental Control[§]

Parents can now take an active role in how their child engages with the digital world. With Norton Family Parental Control[§] **, you can take action to monitor your child's online activity and identify potential dangers before they become problems. This feature includes easy-to-use tools to set screen time limits, block unsuitable sites, and monitor search terms and activity history.

Parent Portal

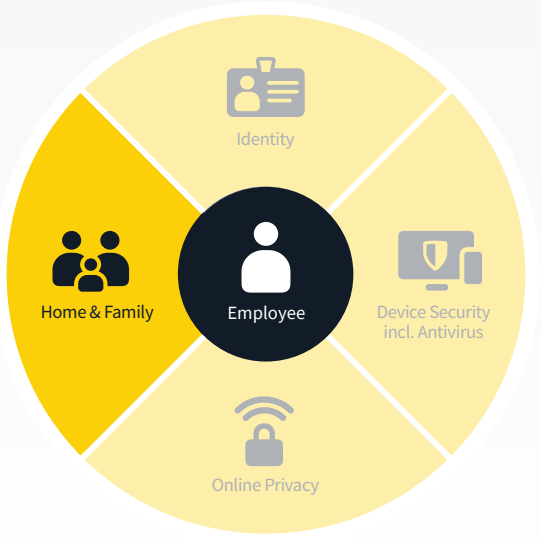

Helps you manage protection for all your child's devices with an easy-to-use Web portal.

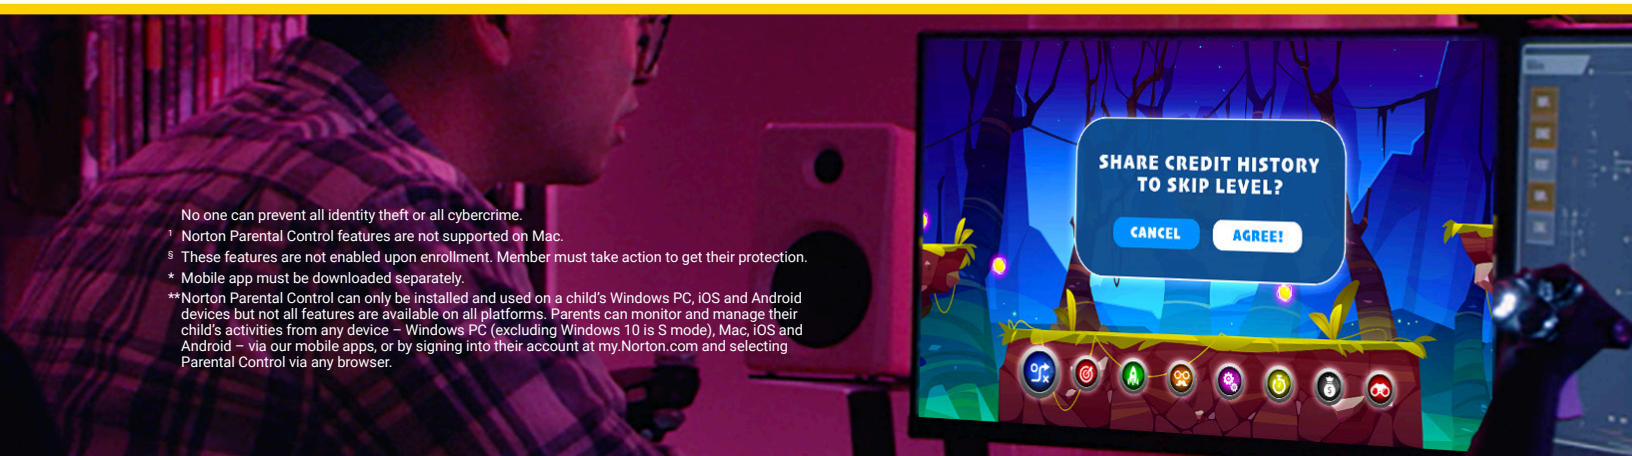

Parental Mobile App*

Stay in the loop about your kids' online activities from your Android or iOS mobile device and adjust settings when you're on the go.

Instant Lock

Parents can help kids take a break by locking the device, so they can re-focus, or join the family at dinner. Individual devices can be unlocked with a PIN. Parents and children can still contact each other while the device is in lock mode.

No one can prevent all identity theft or all cybercrime.
[1] Norton Parental Control features are not supported on Mac.
[§] These features are not enabled upon enrollment. Member must take action to get their protection.
* Mobile app must be downloaded separately.
** Norton Parental Control can only be installed and used on a child's Windows PC, iOS and Android devices but not all features are available on all platforms. Parents can monitor and manage their child's activities from any device – Windows PC (excluding Windows 10 is S mode), Mac, iOS and Android – via our mobile apps, or by signing into their account at my.Norton.com and selecting Parental Control via any browser.

How can I protect my personal info on my devices?

These days, so much of life happens online, that “digital life” is really just life. Shopping, learning, playing, banking and connecting are literally at everyone’s fingertips. With every door that opens possibilities online, a new door can open for cybercriminals.

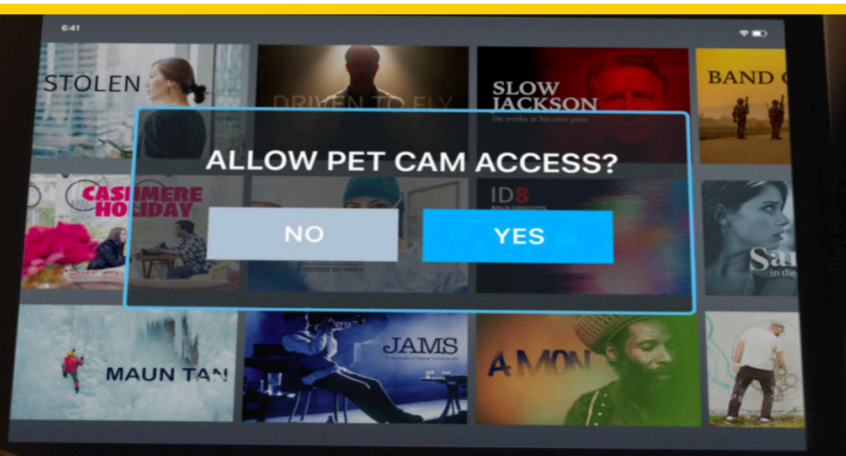

Norton Device Security, including antivirus protection**

Devices, whether mobile or desktop, are a fact of every-one’s connected life. It’s a no-brainer that you should have real-time threat protection for those devices. Multi-layered, advanced security helps protect devices against existing and emerging malware threats, including ransomware, and helps protect private and financial information when employees go online.

Includes antivirus protection, *plus*

- **Smart Firewall[§]**
- **Norton Cloud Backup[2§]**
- **Norton Password Manager[§]**

(Not all products, services and features are available on all devices or operating systems. System requirement information on Norton.com.)

No one can prevent all identity theft or all cybercrime.

[2] Norton Cloud Backup, Norton SafeCam, Norton Family, and Norton Parental Control features are not supported on Mac, Windows 10 in S mode, and Windows running on ARM processor.

[§] These features are not enabled upon enrollment. Member must take action to get their protection.

Choose more privacy and less exposure for your personal information

Your online privacy and security are becoming harder and harder to protect. With multiple devices and Wi-Fi connections, it's becoming easier for cybercriminals to access your personal information. Your online behavior may also be at risk of being exposed as companies can track your browsing history and other data.

Norton Secure VPN

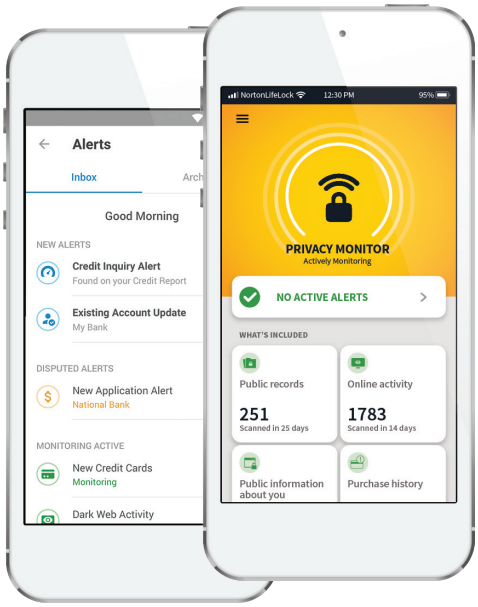

Protects devices and the information on them on vulnerable connections and keeps your online activity and browsing history private.

Privacy Monitor

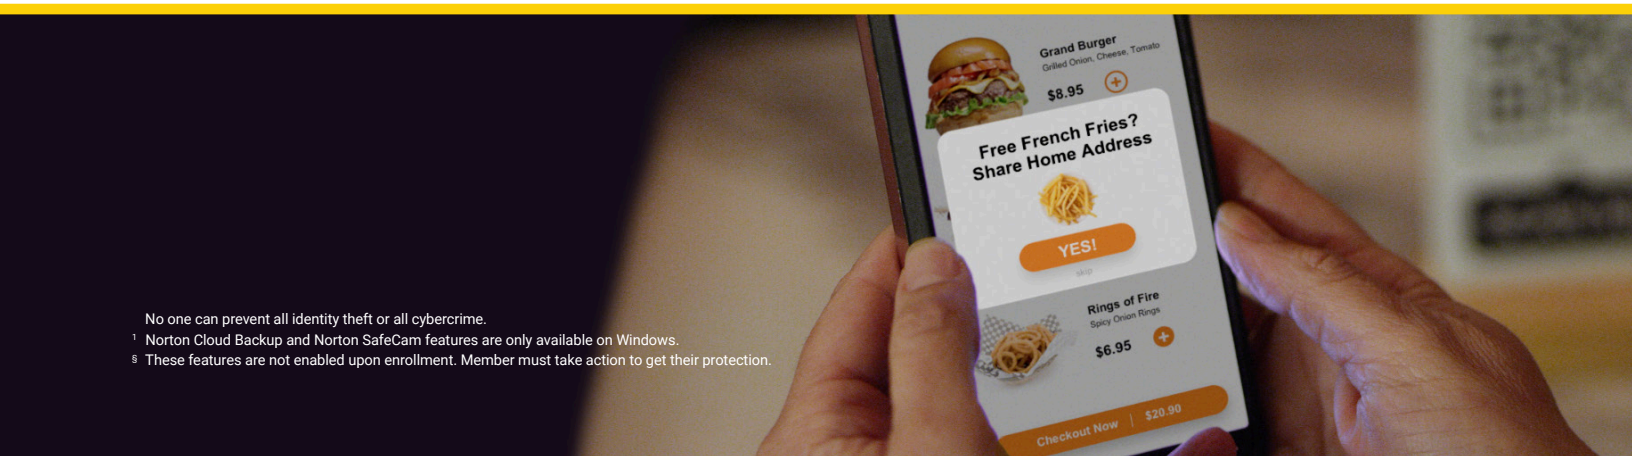

Scans common public people-search websites to help you opt-out.

Norton SafeCam

Alerts you and blocks attempts to access your webcam.[1]

Screens modified for demonstration purposes.
Features may differ depending on plan.

No one can prevent all identity theft or all cybercrime.
[1] Norton Cloud Backup and Norton SafeCam features are only available on Windows.
[§] These features are not enabled upon enrollment. Member must take action to get their protection.

We help keep your digital life a safer place.

Take the easy step to help protect what's important to you and your family. Your info may be out there, but safety starts here – with you.

Plus, we help protect you with our Million Dollar Protection™ Package.[†††]

Restoration

Real, live agents are available to answer questions 24/7. If you have an identity theft issue, a dedicated U.S.-based specialist will work from start to finish to fix it.

Million Dollar Protection™ Package[†††]

If you become a victim of identity theft while a LifeLock member, we will provide the necessary lawyers and experts, if needed, to help resolve the case.

If you have money stolen due to identity theft, we will reimburse up to $1 million. And we will cover personal expenses incurred as a result of identity theft, up to the limits of the your plan.

- **Up to $1 Million for Stolen Funds Reimbursement**
- **Up to $1 Million for Personal Expense Compensation**
- **Up to $1 Million for Coverage for Lawyers and Experts**

ENROLL TODAY!

By providing your name, Social Security number, date of birth, address, phone number and email for yourself and any dependents you wish to enroll.

* If you do not have a telephone number or email address on file, a monthly alert overview will be mailed to your address on file via U.S. Postal Service.

No one can prevent all identity theft or all cybercrime.

[†††]Reimbursement and Expense Compensation, each with limits of up to $1 million for LifeLock with Norton Benefit Essential and LifeLock with Norton Benefit Premier and up to $1 million for coverage for lawyers and experts if needed, for all plans. Benefits under the Master Policy are issued and covered by United Specialty Insurance Company (State National Insurance Company, Inc. for NY State members). Policy terms, conditions and exclusions at: NortonLifeLock.com/legal.

[1] If your plan includes credit reports, scores, and/or credit monitoring features ("Credit Features"), two requirements must be met to receive said features: (i) your identity must be successfully verified with Equifax; and (ii) Equifax must be able to locate your credit file and it must contain sufficient credit history information. IF EITHER OF THE FOREGOING REQUIREMENTS ARE NOT MET YOU WILL NOT RECEIVE CREDIT FEATURES FROM ANY BUREAU. If your plan also includes Credit Features from Experian and/or TransUnion, the above verification process must also be successfully completed with Experian and/or TransUnion, as applicable. If verification is successfully completed with Equifax, but not with Experian and/or TransUnion, as applicable, you will not receive Credit Features from such bureau(s) until the verification process is successfully completed and until then you will only receive Credit Features from Equifax. Any credit monitoring from Experian and TransUnion will take several days to begin after your successful plan enrollment. Please note that in order to enjoy all features in your chosen plan, such as bank account alerts, credit monitoring, and credit reports, it may require additional action from you and may not be available until completion.

[2] If your plan includes One Bureau Credit Application Alerts, two requirements must be met to receive said features: (i) your identity must be successfully verified with TransUnion; and (ii) TransUnion must be able to locate your credit file and it must contain sufficient credit history information. IF EITHER OF THE FOREGOING REQUIREMENTS ARE NOT MET YOU WILL NOT RECEIVE ONE BUREAU CREDIT APPLICATION ALERTS. One Bureau Credit Application Alerts will take several days to begin after your successful LifeLock plan enrollment.

[3] Norton Cloud Backup, Norton SafeCam, Norton Family, and Norton Parental Control features are not supported on Mac, Windows 10 in S mode, and Windows running on ARM processor).

[4] Norton Parental Control can only be installed and used on a child's Windows PC, iOS and Android devices but not all features are available on all platforms. Parents can monitor and manage their child's activities from any device – Windows PC (excluding Windows 10 is S mode), Mac, iOS and Android – via our mobile apps, or by signing into their account at my.Norton.com and selecting Parental Control via any browser.

[5] Locking or unlocking your credit file does not affect your credit score and does not stop all companies and agencies from pulling your credit file. The credit lock on your TransUnion file will be unlocked if your subscription is downgraded or cancelled.

† The LifeLock alert network includes a variety of product features and data sources. Although it is very extensive, our network does not cover all transactions at all businesses, so you might not receive a LifeLock alert in every single case.

††† Reimbursement and Expense Compensation, each with limits of up to $1 million for LifeLock with Norton Benefit Essential and LifeLock with Norton Benefit Premier and up to $1 million for coverage for lawyers and experts if needed, for all plans. Benefits under the Master Policy are issued and covered by United Specialty Insurance Company (State National Insurance Company, Inc. for NY State members). Policy terms, conditions and exclusions at: NortonLifeLock.com/legal.

* Does not include monitoring of chats or direct messages.

** These features are not enabled upon enrollment. Member must take action to activate this protection.
