2026 Employee Benefits Guide

Please read this guide carefully.

It summarizes your plan options and provides helpful tips for optimizing your benefits. If you have questions about benefits and the annual enrollment process, contact the TrueBlue Benefits Department through My Service Center for assistance.

Annual notices are available here:

<https://online.flippingbook.com/view/632304410/>

Who is Eligible?

You will need to register for this free site. Your user ID will be your Social Security number and your password will be your eight-digit date of birth (MMDDYYYY). How to Enroll

NEW FOR 2026 OPEN ENROLLMENT! This open enrollment period will be active, self-service enrollment. This means that you will need to manually log in and select the coverages you desire for next year. Your current coverages will not carry-over. If you don't actively select coverage, you will not have coverage during the 2026 plan year, unless you experience a qualifying life event.

To sign up for benefits, visit your [TrueBlue Employee Benefits Portal](#) in My Apps before the end of your enrollment period.

Enrollment Deadlines

Coverage Effective Date Start of plan year January 1st	Coverage Effective Date First day of employment	Coverage Effective Date Date of life event

Making Changes

Choose your benefits carefully. IRS regulations state that you cannot change your pre-tax benefit options during the year unless you experience a qualifying life event (QLE). Qualifying life events include, but are not limited to:

- Birth, legal adoption, or placement for adoption.
- Marital status.
- Dependent child reaches age 26.
- Spouse gains or loses employment or eligibility with current employer.
- Death of a covered dependent.
- Spouse or dependent becomes eligible or ineligible for Medicare/Medicaid or SCHIP.
- Change in residence that changes eligibility for coverage.
- Court-ordered change.

Changes to your coverage due to a qualifying life event must be made within 30 days of that life event. Proof of the qualifying life event is required (marriage certificate, divorce decree, birth certificate, or loss of coverage letter).

Note: Any change you make to your coverage must be consistent with the change in status.

See page 21 for **Qualifying Life Event** video.

- Major Medical Plans: Eligibility begins the first of the month following 60 days from date of eligibility. For all other benefits, first of the month following 30 days from date of first paycheck.

Supplemental Health Benefits

VOYA

Our medical plans provide comprehensive coverage for a wide range of healthcare needs. However, everyone's needs differ, and that's where supplemental health options come into play. These benefits are designed to protect your family's finances in case of an unforeseen injury or illness. These benefits are offered to you through Voya. Please visit <https://presents.voya.com/EBRC/TrueBlue> or call 800.955.7736 for additional details.

Accident Insurance

After a covered accident, accident plans pay cash benefits directly to you to cover some of the remaining costs your health insurance plan may not cover. You have the option of enrolling in the Low or High accident plan.

The policies include a Wellness Benefit of \$60 once per insured person per calendar year. This benefit is payable for wellness tests performed as a result of preventive care, including tests and diagnostic procedures ordered in connection with routine examinations.

Important: If you/your dependents enroll in the Value Consumer-Directed Health Plan (CDHP), you/your dependents are automatically enrolled in the accident insurance at no cost to you.

Critical Illness Insurance

Critical illness insurance helps safeguard your income and personal assets when out-of-pocket costs rise due to a specific illness. The plan covers conditions such as heart attack, stroke, end-stage renal failure, and invasive cancer. You have the option to enroll in the Low or High Critical Illness plan.

This policy also offers a \$60 Health Screening Benefit once per insured individual each calendar year. This benefit is paid directly to you if you complete a covered health screening test on or after your coverage start date, performed as part of preventive care, including tests and diagnostic procedures ordered during routine examinations.

Important: if you or your dependents enroll in the Value Consumer-Directed Health Plan (CDHP), you or your dependents are automatically enrolled in the basic level of coverage for critical illness (\$5,000) at no cost to you. A higher coverage amount would still incur a cost.

Lump sum benefits are paid directly to you based on the type of facility and the number of days hospitalized.

This policy includes a Wellness Benefit of \$60 once per insured person per calendar year. This benefit is payable for wellness tests performed as part of preventive care, including tests and diagnostic procedures ordered in connection with routine examinations.

Glossary of Terms

COPAYMENT: A copayment (copay) is the fixed dollar amount you pay for certain in-network services on a PPO-type plan. In some cases, you may be responsible for coinsurance after a copay is made.

COINSURANCE: Your share of the costs of a healthcare service, usually figured as a percentage of the amount charged for services. You start paying coinsurance after you've met the deductible. Your plan covers a certain percentage of the total cost of service/care, and you are responsible for the remaining percentage.

DEDUCTIBLE: A deductible is the amount of money you must meet before your plan begins paying for services covered by coinsurance. Some services, such as office visits that require copays, do not apply to the deductible. For example, if your plan's deductible is \$1,000, you'll pay 100 percent of eligible healthcare expenses until you have met the \$1,000 deductible. After that, you share the cost with your plan by paying coinsurance.

FORMULARY: A list of prescription drugs covered by the plan. Also called a drug list.

HIGH DEDUCTIBLE HEALTH PLAN (HDHP): This type of medical plan requires that members reach a deductible prior to having services covered by coinsurance. All expenses paid by a member count toward the deductible and out-of-pocket maximum.

IN-NETWORK: A group of doctors, clinics, hospitals, and other healthcare providers that have an agreement with your medical plan provider. You pay a negotiated rate for services when you use in-network providers.

OUT-OF-NETWORK: Care received from a doctor, hospital, or other provider not part of the plan agreement. You'll pay more when you use out-of-network providers since they don't have a negotiated rate with your plan provider. You may also be billed the difference between what the out-of-network provider charges for services and what the plan provider pays.

OUT-OF-POCKET MAXIMUM: This is the most you must pay for covered services in a plan year. After you spend this amount on deductibles and coinsurance, your health plan pays 100 percent of the costs of covered benefits. However, you must pay for certain out-of-network charges above reasonable and customary amounts.
