of Texas

Provider Network for Utah Members

When you need health care in Utah, use doctors, hospitals and other care facilities in the Preferred Blue Option (Utah) network.

Find your provider today.

How to find an in-network provider as a guest

Blue Cross and Blue Shield of Texas wants to help you get the most from your health care benefits. Using independently contracted in-network providers is one way to keep your out-of-pocket costs lower.

Find out if your provider is in-network. Use Provider Finder® as a guest to look for doctors, hospitals and other health care providers before you get your member ID card.

1. Go to **bcbstx.com**.
2. Click **Find Care** and select **Find a Doctor or Hospital**.
3. Scroll down to **Basic Guest Search** and click **Search for Doctors as a Guest**.
4. Enter the city and state or ZIP code where you want to search.
5. Select **Employer Plans** for type of plan to search and confirm your State.
6. Choose **Preferred Blue Option (Utah)** and click on **Search Selected Plan for Doctors**.
7. Click **View Profile** to get more details about a provider.

After you get your member ID card, register for Blue Access for Members℠ and log in there for personalized search results.

Your group benefit plan is administered by BCBSTX. This plan gives you access to in-network doctors and hospitals throughout the U.S. even if you do not live in Texas.
