

Hospital Insurance

can pay benefits that help you with the costs of a covered hospital visit.

How does it work?

Hospital Insurance helps covered employees and their families cope with the financial impacts of a hospitalization. You can receive benefits when you're admitted to the hospital for a covered accident, illness, or childbirth. The money is paid directly to you – not to a hospital or care provider. The money can also help you pay the out-of-pocket expenses your medical plan may not cover, such as co-insurance, co-pays and deductibles.

What's included?

- \$500 for each covered hospital admission
- \$250 for physician-ordered diagnostic procedure – once per year
- \$500 or \$1,000 for outpatient surgery, depending on the procedure, to a calendar-year maximum

Why is this coverage so valuable?

- You may take the coverage with you if you leave the company or retire, without having to answer new health questions. You'll be billed directly.

Who can get coverage?

You:	If you're actively at work
Your spouse:	Ages 17 and up
Your children:	Dependent children until their 26th birthday, regardless of marital or student status.

Employee must purchase coverage for themselves in order to purchase spouse or child coverage. Employees must be legally authorized to work in the United States and actively working at a U.S. location to receive coverage. Spouses and dependent children must reside in the United States to receive coverage.

How much does it cost?
