

On-demand **directory** of benefits and internal resources

Flimp's Mobile Contact Wallets make it easy for employees to **find internal resources and contact info** anytime. These secure, mobile-responsive microsites provide employees with easy access to all their company, benefits, department or other contacts and related materials whenever they have questions.

We offer two options: the standard **Mobile Contact Wallet is a single-page microsite** that displays contact cards; the **MCW Plus is a multi-page site** with a menu page linked to additional pages with contact details plus text, educational videos, linked resources and more. Both options include setup, hosting, reporting, minor edits and multichannel distribution for one year.

Choose the Option that Best Fits Your Needs

Mobile Contact Wallet

You can present up to 24 contact cards right on the main page. Contact cards can include:

- Title or category
- Contact's name, title, email, and phone number
- and up to two linked resources

Mobile Contact Wallet Plus

Your menu page shows up to 24 category tiles linked to pages with additional information, for example:

- Title, category, or headline
- Contact's name, title, email, and phone number
- Your messaging
- Educational videos
- Unlimited linked resources
- Forms, surveys, quizzes, and more

Please note: setup begins once we receive all the content to create, customize, and populate your microsite. And the client is responsible for gathering and providing the benefits content for the site to your project manager.

Project timelines are general estimates and may vary based on client/broker responsiveness, organization, and final plan readiness. Flimp will make every effort to meet client needs, but clients should plan according to the estimates provided.
