

# Hearing-care discounts

With Unum Vision powered by EyeMed

## Have you heard?

44 million U.S. adults aged 20 and older have some sort of hearing loss.<sup>1</sup> Noise-induced hearing loss is one of the leading culprits of why adults need hearing aid devices at younger ages. This can be caused by frequent headphone usage, loud work environments or even being exposed to loud decibel sounds for extended periods, like a weekend music festival.

Your employer values your overall health and wellness. With your Unum Vision plan powered by EyeMed, you can access hearing care discounts through Amplifon — experts in hearing health care.

Call 1-877-203-0675 to find a hearing care provider near you and schedule a hearing exam today.
