Custom Creative

We design and create a custom-branded video with dynamic animations, transitions, graphics and images. Provide us with your branding guidelines, a slide deck and script notes and we produce a beautifully designed chaptered presentation video.

- Turnaround: four to six weeks – begins when Flimp is provided completed script, brand guidelines and initial creative direction
- Scripting services available
- Six-minute minimum

Branded Design

We produce a custom-branded video using our professionally designed and scripted Benefits Overview slide template. Just choose a style and the modules you need and edit the starter script. Then, we update the colors, graphics and images to fit your needs.
