

Managed text messaging designed for busy HR teams

With Flimp Connect messaging services, we set up and manage your **text message (SMS and MMS)** employee-communication campaigns for you.

Flimp Connect is a **secure, SOC 2 Type II compliant platform that supports HIPAA requirements**, giving IT and legal teams confidence in your data security and privacy practices. And, unlike most platforms, Flimp Connect is used primarily by employers communicating with their employees—not mass marketing—which ensures high deliverability.

Prefer to DIY? We also offer **individual accounts and multi-tiered, multi-tenant accounts** to manage messaging for multiple groups.
