

Why buy Accident Insurance?

You can't always avoid accidents — but you can be prepared

Even with good insurance, injuries can set your finances back in a big way. In fact, 47% of working adults cite health emergencies as the reason they have medical debt.¹ And when you're hurt, the last thing you want to worry about is out-of-pocket expenses you're not prepared to pay.

Unum Accident Insurance can help, by paying benefits directly to you if you get treatment for over 100 covered accidental injuries. That way, an injury doesn't have to derail your financial security.

How Unum Accident Insurance works

If you or covered family members are injured in a covered accident, Accident Insurance provides a benefit directly to you to help take care of unexpected costs you might have to pay out of pocket. It's easy to receive your benefits:

1. After your accident, file a claim online and receive a claims decision in about four days.
2. Use your benefit to pay for things like doctor visits, ambulance fees, hospital bills and other out-of-pocket expenses your health insurance doesn't cover. The choice is up to you.
3. Focus on your recovery with some of your big expenses covered by your Accident Insurance.

The cost of an accident can add up

Stella had a bike accident. Instead of maxing out her credit card paying the out-of-pocket expenses from her injury, she used her \$900 Accident Insurance payout to cover these costs:

- **\$400** for an ambulance
- **\$150** for the emergency room
- **\$100** toward repairing her fractured toe
- **\$150** for the two follow-up visits
- **\$100** to cover her crutches

For illustrative purposes only.

Costs of treatment and benefit amounts may vary.

It pays to stay healthy

Even when you aren't recovering from an injury you may be eligible to receive a benefit for a covered health screening test.
