During congestion, customers on this plan using >50GB/mo. may notice reduced speeds until next bill cycle due to data prioritization. Video typically streams on smartphone/tablet at DVD quality (480p). One-time payment of the \$30 Enrollment Fee Per line will be required prior to activation. Monthly Regulatory Programs (RPF) & Telco Recovery Fee (TRF) totaling \$3.49 per voice line (\$0.60 for RPF & \$2.58 for TRF) and \$1.16 per data only line (\$0.15 for RPF & \$1.01 for TRF) applies; taxes/fees approx. 4 -38% of bill. Capable device required for some features. Not combinable with certain offers. Switching plans may cause you to lose current plan/feature benefits; ask a rep for details. Max 6 lines. Plan not available for hotspots and some other data-first devices. **Unlimited talk & text** features for direct communications between 2 people; others (e.g., conference & chat lines, etc.) may cost extra. Some messages, including those over 1MB, use data and may be unavailable internationally. Unlimited U.S. roaming. High-speed data is US only. In Canada/Mexico, data is unlimited at up to 128kbps speeds. Not available for hotspots and some other data-first devices. **Video streams** at up to 1.5Mbps. Optimization may affect speed of video downloads; does not apply to video uploads. For best performance, leave any video streaming applications at their default automatic resolution setting. **Tethering** 5GB high-speed data then unlimited on our network at max 3G speeds. For the small fraction of customers using >50GB/mo., primary data usage must be on smartphone or tablet. Smartphone/tablet usage is prioritized over Mobile Hotspot (tethering) usage, which may result in higher speeds for data used on smartphones and tablets. **AutoPay Pricing** for lines 1-5, max discount of \$25. Without AutoPay, \$5 more/line/mo. May not be reflected on 1st bill. **Int'l Roaming:** Usage may be taxed in some countries. Calls from Simple Global countries, including over Wi-Fi, are \$.20/min. (no charge for Wi-Fi calls to US, Mexico and Canada); customers on consumer plans (e.g. some sole proprietors) pay an additional \$.05/min. Standard speeds approx. 128Kbps. **Not for extended international use; you must reside in the U.S. and primary usage must occur on our network.** Device must register on our network before international use. Service may be terminated or restricted for excessive roaming. **Coverage** not available in some areas; we are not responsible for our partners' networks. **Scam Shield:** Capable device req'd. Turning on Scam Block might block calls you want; disable any time. **Network Management:** Service may be **slowed, suspended, terminated, or restricted** for misuse, abnormal use, interference with our network or ability to provide quality service to other users, or significant roaming. During congestion, heavy data users (>50GB/mo. for most plans) and customers choosing lower-prioritized plans may notice lower speeds than other customers. On-device usage is prioritized over tethering usage, which may result in higher speeds for data used on device. See T-Mobile.com/OpenInternet for details.
