Frequently Asked Questions

How much will my medication cost?

You can find the cost of your medication by using the member portal at truerx.com/myrxplan.com or by downloading the “MyRxPlan” app to compare prices at different pharmacies in your area.

What should I do if my prescription is delayed or denied?

The primary reason a prescription is delayed or denied is that the pharmacy lacks necessary insurance information from your new ID card. Be sure to give the pharmacy your updated information. If you have questions, please give us a call. Our Patient care representatives are experts in your pharmacy benefit plan.

What should I do if I need a Prior Authorization?

A prior authorization (PA) is a process requiring your health care provider’s office to send information supporting the use of a prescribed medication. Examples of drugs needing a PA are those with potentially harmful side effects when combined with other drugs, should only be used for certain health conditions, or when less expensive drugs might work equally well or better. If you have questions, please give us a call.

I take a specialty or high-cost medication. What should I do?

A case manager will contact you with personalized service to transition you with personalized service to the SHARx program. If you have questions, please call 314-451-3555 or the True Rx Patient Care team.
