Norton Family Parental Control

Help your kids explore, learn and enjoy their connected world safely.

Parental Control helps parents teach their children safe, smart and healthy online habits. Easy-to-use tools allow parents to set screen time limits, block unsuitable sites, and monitor search terms and overall activity history.*

Parental controls and monitoring* to help your kids explore the web safely.

Norton Family Parental Control* allows you to see your kids' online activities at a glance or be notified by email alerts, so you know when it's time to talk. Help manage your kids' time spent online so you know when it's time to encourage having some offline fun. It makes surfing the web safer for kids to explore and teaches habits that help protect kids from oversharing.

Digital safety is a family affair

Norton Family Parental Control* will help you:

- Know at a glance when and where your kids spend time online.
- Use simple settings to make the web safer for kids to explore.
- Easily help protect kids' private information.
- Gain valuable insights that lead to open, informed conversations.
- Teach balance and healthy habits without taking away kids' freedom.
- Easily protect your kids' devices with a single solution.

No one can prevent all identity theft or all cybercrime.
* Not all features are available on all platforms. Presently not supported on Mac OS.

Norton Family Parental Control

	Windows	iOS	Android
Web Supervision Let your kids explore the web freely, with tools that block unsuitable websites while keeping you in the know about which sites they're visiting.	●	●	●
Time Supervision Stay on top of how much time your kids spend on their devices. Foster healthier habits by scheduling specific times of the day or week each device can be used, and how many hours a day can be spent on each device (daily time limit functionality is not supported on iOS, but time curfew functionality is supported).	●	●	●
Search Supervision See the words, terms, and phrases your kids are searching for to gain insights into their interests and help protect them from inappropriate content.	●	●	●
Social Network Supervision See how frequently your kids log on to Facebook or other social media platforms from their PCs, and the name and age they use on their profiles, so you can talk to them about smart social media habits.	●		
Personal Information Protection Help your children avoid giving out sensitive personal information when online, including phone number, address, school they attend, or email address.	●		
Email Alerts Find out when your kids attempt to visit a blocked site so that you can start a conversation about appropriate content.	●	●	●
Access Request Open the lines of communication by enabling your kids to send you a note from within Norton Family Parental Control if they disagree with a blocked site or a house rule.	●	●	
Parent Portal Helps you manage protection for your devices with an easy-to-use web portal.	●		●
Activity History See at a glance what your kids are doing on their connected devices and how much time they've spent on their PCs, so you can clearly spot trends and emerging habits.	●	●	●
Parent Mobile App[3] ** Stay in the loop about your kids' online activities from your mobile device and adjust settings when you're on the go		●	●
Location Supervision[2,3] ** Stay informed about where your kids are with tools that map the location of their Android or iOS devices and provide a 30-day history to show where they've been.		●	●
Mobile App Supervision[3] ** See which apps your kids have downloaded on their Android devices and choose which ones they can use.			●
Video Supervision[4] See a list of the YouTube videos your kids watch on their devices and even view a snippet of each video, so you know when you need to talk.	●	●	●
Instant Lock Parents can help kids take a break by locking a device, so they can re-focus or join the family at dinner. Once in lock mode, all of the device applications, web browsers, games, programs and more are inaccessible, until manually disabled using the Parent Portal. Individual devices can be unlocked with a PIN. Parents and children can still contact each other while the device is in lock mode.	●	●	●
Monthly/Weekly Reports Opt to receive detailed reports of what your kids are doing online, right in your inbox or on the Parent Portal.	●	●	●

System Requirements

Windows Operating Systems
- Microsoft Windows 10 (all versions), except Windows 10 S. Metro and Edge browsers not supported.
- Microsoft Windows 8/8.1 (all versions). Metro browser not supported.
- Microsoft Windows 7 (all versions) with Service Pack 1 (SP 1) or later.
