- Birth, legal adoption, or placement for adoption.
- Marital status.
- Dependent child reaches age 26.

- Court-ordered change.

Changes to your coverage due to a qualifying life event must be made within 30 days of that life event. Proof of the qualifying life event is required (marriage certificate, divorce decree, birth certificate, or loss of coverage letter).

Note: Any change you make to your coverage must be consistent with the change in status.

## Glossary of Terms

**COPAYMENT:** A copayment (copay) is the fixed dollar amount you pay for certain in-network services on a PPO-type plan. In some cases, you may be responsible for coinsurance after a copay is made.

**COINSURANCE:** Your share of the costs of a healthcare service, usually figured as a percentage of the amount charged for services. You start paying coinsurance after you've met the deductible. Your plan covers a certain percentage of the total cost of service/care, and you are responsible for the remaining percentage.

**DEDUCTIBLE:** A deductible is the amount of money you must meet before your plan begins paying for services covered by coinsurance. Some services, such as office visits that require copays, do not apply to the deductible. For example, if your plan's deductible is \$1,000, you'll pay 100 percent of eligible healthcare expenses until you have met the \$1,000 deductible. After that, you share the cost with your plan by paying coinsurance.

**FORMULARY:** A list of prescription drugs covered by the plan. Also called a drug list.

**HIGH DEDUCTIBLE HEALTH PLAN (HDHP):** This type of medical plan requires that members reach a deductible prior to having services covered by coinsurance. All expenses paid by a member count toward the deductible and out-of-pocket maximum.

**IN-NETWORK:** A group of doctors, clinics, hospitals, and other healthcare providers that have an agreement with your medical plan provider. You pay a negotiated rate for services when you use in-network providers.

**OUT-OF-NETWORK:** Care received from a doctor, hospital, or other provider not part of the plan agreement. You'll pay more when you use out-of-network providers since they don't have a negotiated rate with your plan provider. You may also be billed the difference between what the out-of-network provider charges for services and what the plan provider pays.

**OUT-OF-POCKET MAXIMUM:** This is the most you must pay for covered services in a plan year. After you spend this amount on deductibles and coinsurance, your health plan pays 100 percent of the costs of covered benefits. However, you must pay for certain out-of-network charges above reasonable and customary amounts.
