

Virtual dentist visits from anywhere

If you have a minor dental problem, virtual visits let you consult with a dentist right away.

Your dental plan covers teledentistry.

Virtual visits are covered the same as an exam in the dentist's office,* but you may have out-of-pocket costs. Your annual maximum and frequency limitations will also apply.

How do teledentistry visits work?

You'll consult with the dentist during a video appointment, using your computer, smartphone or tablet. Just explain your symptoms, or show the dentist your problem, and they'll evaluate your issue and advise what to do next.

Book a teledentistry appointment.

If your regular dentist doesn't offer virtual visits, you can schedule one through the Dental.com service right from our website. You'll be connected to an available dentist in just minutes.

A Dental.com virtual visit counts as a problem-focused exam (D0140) under your dental plan. Coverage levels for this service do not vary based on whether the visit is conducted virtually or in person. Teledentistry is available only to U.S. residents and may not be available in all states. This service supplements your current plan coverage and should be used after business hours, holidays, and weekends or when your regular dentist is unavailable. Prescription medications are not covered by United Concordia dental plans. Virtual Dental Care, Inc. is an independent company and neither Virtual Dental Care, Inc. nor its Dental.com platform is affiliated with United Concordia. For full policy exclusions and limitations and complete details of the coverage, call your insurance agent or the company. Policies or their provisions may vary or be unavailable in some states. See the actual policy or your account representative for specific provisions and details of availability.
