

DIAGNOSIS VERTICAL • ORTHOPEDIC

DIAGNOSIS • TORN ROTATOR CUFF

RESULT • HIS DIAGNOSIS WAS CORRECT. NATE HAD A VERY SUCCESSFUL SURGERY THAT COST HIM $0 AND SAVED $32,000 FOR THE CLIENT.

EDISON MEMBER TESTIMONIAL

"I have nothing but positive feedback for the Edison program, their Center of Excellence, and my surgeon. My Edison Care Coordinator and Clinical Nurse were impeccable. They stayed on top of all of my issues and remained in contact throughout my healthcare process. Their Center was top-notch - I can't say enough about the care, attention to detail, and quality of their staff and providers. My surgical experience was terrific, and the results exceeded my expectations. I've seen other patients' X-rays from the same procedure, and the implant my surgeon used appears light-years ahead. PT is going great locally, and I have three follow-ups in Indianapolis over the coming months. If I need orthopedic care in the future, Edison will be my first choice. I only wish my experiences locally were this great. From start to finish, Edison gets five stars from me!"
