Identity Theft Protection

Proprietary technology monitors† for potentially fraudulent use of our members' SSN, name, address and date of birth. The patented system sends alerts by text, phone‡‡, email or mobile app when a potential threat is detected.

Device Security

Multi-layered, advanced security helps protect devices against existing and emerging malware threats, including ransomware, and helps protect private and financial information when employees go online.***

Online Privacy

Protect devices on vulnerable connections through bank-grade encryption to keep information private. We also scan common public people-search websites for employees' info and help them opt-out.***
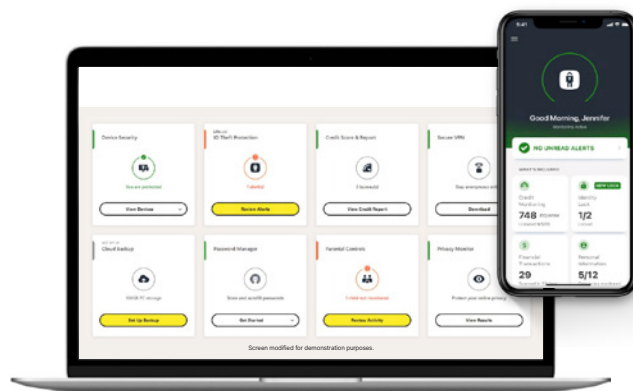

Streamlined Member Dashboard

We help safeguard your identity, privacy, and security with our easy-to-use, convenient solution.
