Frequently Asked Questions on Telehealth

Are telehealth visits covered under my plan?

As with any health benefit, how telehealth visits are covered depends on the Medical Mutual plan in which you are enrolled. You can use telehealth on-demand for acute conditions such as a sore throat or sinus infection. You can also schedule a telehealth visit to help manage chronic health conditions such as diabetes or high blood pressure. Generally speaking, scheduled telehealth visits are covered the same as standard office visits. Behavioral health visits are not covered in on-demand settings.

Note: To see what is covered under your plan, log into My Health Plan and check your benefits under Benefits & Coverage, or call Customer Care using the number on your ID card.

Do I need to make an appointment for a telehealth visit?

You can make an appointment for a telehealth visit with a provider just like you would a regular office visit. If you need to speak to a healthcare provider right away, you can use an on-demand telehealth service like MinuteClinic Virtual Care,[™] which is covered by your plan. An on-demand telehealth visit is similar to walking into an urgent care center. You do not need to schedule an appointment.

What is the cost for a telehealth visit?

If you have any questions related to your benefits and estimated costs, please contact Medical Mutual Customer Care at the number on your ID card or visit your My Health Plan account.

Do I need any special equipment to participate in a telehealth visit?

Telehealth visits can be done through a smartphone, tablet or computer. Most devices have cameras built in, or you can use a standalone webcam. The healthcare provider you are seeing will let you know what you'll need to connect for your telehealth visit.

How should I prepare for a telehealth visit?

Check your internet connection and test your camera before logging in for your telehealth visit. Here are a few additional tips:

- Try to find a quiet space where you can have a private conversation with the provider.
- Be prepared to explain your symptoms and any health concerns.
- Make a list of medications or supplements you're taking and ask for refills, if needed.
- Note any allergies and discuss them with the provider.
