WELLNESS PROGRAM

Marshalltown is committed to the health and well-being of our employees. We encourage employees to achieve and maintain a healthy lifestyle through healthy habits such as physical fitness. The Hourly Wellness Program is intended to support a happier, healthier workforce.

Eligibility

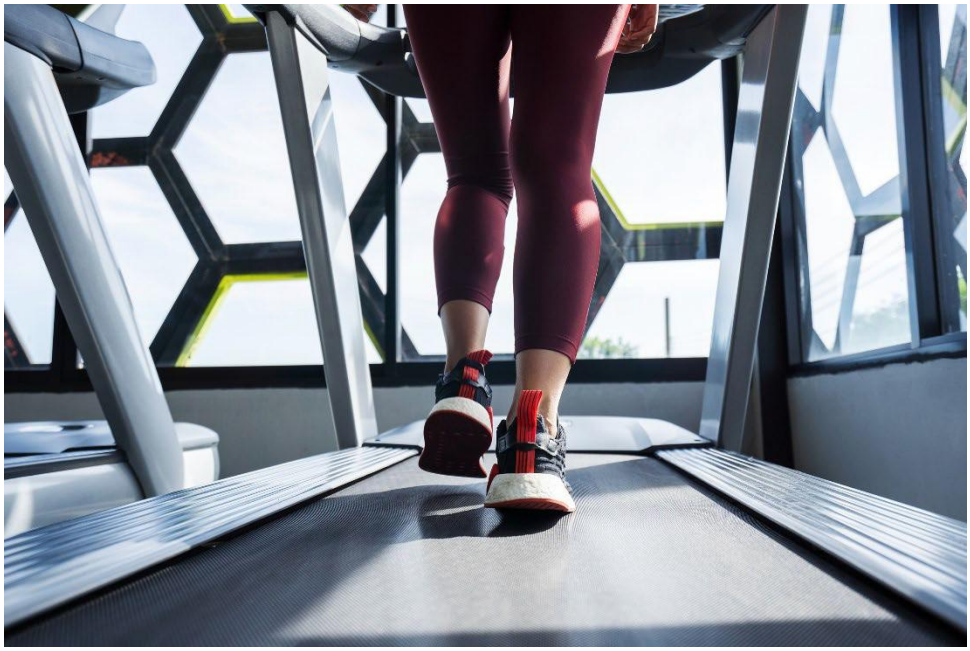

Fitness membership, to include gyms, recreational activities, weight-loss programs, smoking cessation programs, etc., reimbursement is available to hourly full-time employees who have been employed by MARSHALLTOWN for a minimum of 6 months.

Policy

Employees will be reimbursed up to $150 per year for eligible fitness membership fees. Eligible fees include the enrollment (if applicable) and annual or monthly fees for membership at a fitness center. For example, if an employee is reimbursed in September of 2026, they will not be eligible for reimbursement again until September of 2027. The amount reimbursed will be done through payroll so will be reported as taxable income to the Internal Revenue Service and is subject to FICA, Medicare, federal, state, and local taxes.

Procedure

Employees should submit documentation (generally in the form of a fitness membership contract with a breakdown of fees) directly to Human Resources for reimbursement. Human Resources to process via payroll on employee next available paycheck.

This is a PASSIVE enrollment - previous benefit elections will be carried over. Employees who would like to change benefit coverage in 2027 must log into Paycom between Monday, October 26th - Friday, November 6th, 2026 to make changes.

Employees who work 30 hours or more per week are considered to be "Full-time" and are eligible to enroll. In addition, you can enroll:

a. Your spouse from a legally recognized marriage
b. Your children, if under the age of 26

After reading this guide and reviewing the information on the Employee Benefit Center, carefully consider which plan and premium tier best fits your situation.

This is your opportunity to add (or remove) coverage for yourself or your dependents.

Don't forget to review and update your beneficiary information.

Remember – the choices you make during this Annual Enrollment will be in effect from January 1, 2027 - December 31, 2027. You can only make a change during the year if you have a qualified change in status (or life event).

BENEFITS VOCABULARY

WELCOME TO YOUR BENEFITS!

To better understand your coverage, it's helpful to be familiar with **benefits vocabulary**. Take a moment to review these terms, which may be referenced throughout this guide.

Balance Bill – When a health care provider bills a patient for the difference between what the patient's health insurance chooses to reimburse and what the provider chooses to charge.

Copay – A fixed dollar amount you pay the provider at the time of service; for example, a $25 copay for an office visit or a $10 copay for a generic prescription.

Coinsurance – The percentage paid for a covered service, shared by you and the plan. Coinsurance can vary by plan and provider network. Review the plans carefully to understand your responsibility. You are responsible for coinsurance until you reach your plan's out-of-pocket maximum.

Deductible – The amount you pay each calendar year before the plan begins paying benefits. Not all covered services are subject to the deductible; for example, the deductible does not apply to preventive care services.

Emergency Room Care – Care received at a hospital emergency room for life- threatening conditions.

In-Network Care – Care provided by contracted doctors within the plan's network of providers. This enables participants to receive care at a reduced rate compared to care received by out-of-network providers.

Out-of-Network Care – Care provided by a doctor or at a facility outside of the plan's network. Your out-of-pocket costs may increase and services may be subject to balance billing.

Out-of-Pocket Maximum – The maximum amount you pay per year before the plan begins paying for covered expenses at 100%. This limit helps protect you from unexpected catastrophic expenses.

Premium – The complete cost of your plans. You share this cost with your employer and pay your portion through regular paycheck deductions.

Preventive Care – Routine health care including annual physicals and screenings to prevent disease, illness, and other health complications. In-network preventive care is covered at 100%.

Urgent Care – Urgent care is not the same as emergency care. Visit urgent care for sudden illnesses or injuries that are not life-threatening.

Urgent care centers are helpful when care is needed quickly to avoid developing more serious pain or problems.

Preferred generic drugs – Generic drugs have the same active ingredients and work the same way as the brand-name drugs they copy. They usually cost less than the brand-name versions.

Preferred brand drugs – These drugs are included in a plan's list of covered drugs and may not have a generic version. They cost more than generic drugs but less than non-preferred brand drugs.

Specialty drugs – These drugs are used to treat ongoing health conditions and can be costly. They often require special handling and may have to be ordered through a specialty pharmacy.

MEC Plan – Minimum Essential Coverage. A MEC plan is health insurance that meets the federal government's standard for coverage.

BENEFITS 101

Deductible

Amount you pay for healthcare **BEFORE** your insurance starts to pay.

Coinsurance (aka Cost Share)

A **percentage** of the cost of care you are responsible to pay for **AFTER** you have met the deductible.

Co-Payment (aka Copay)

Fixed amount of money you pay each time you or your dependents receive care.

Out of Pocket Maximum (OPM)

Greatest amount of money you can spend on healthcare for the year.

- Does not include premiums or costs that your insurance plan does not cover.
