

Wondr Health FAQ

What is Wondr?

Wondr is an online program which helps you change how you eat instead of what you eat. Learn the skills to lose weight and keep it off forever while still eating your favorite foods. It is not a diet. As you lose weight, you also improve your health by improving the risk factors that can lead to serious, chronic diseases like diabetes, heart disease, cancer and more.

What can I expect from the Wondr?

Once the program begins, each week, you will get access to a new series of videos that share the Wondr principles. These principles are the keys that will help you learn when and how to eat so that you can still eat all the foods you love and lose weight at the same time.

The entire dashboard is available to you 24 hours a day so you can watch whenever it is convenient for you. In addition to the videos, the dashboard includes tools to track your weight loss progress, monitor your activity, and find inspiration. Plus, in the program, you will have access to WondrLink, the online community where participants can share ideas, successes, and challenges as well as reach Wondr coaches.

How do I join the program?

Simply go to www.wondrhealth.com/AtHome and click the 'Apply Now' button and complete the online application. Your application is considered complete once you hit 'Submit' and see a confirmation message that your application was successfully submitted. There may be a limited number of spaces available so please ensure you are committed to diligently completing the program before taking one of the spots.

Cost Information

Is there a cost for this program?

The Wondr program is covered 100% by your employer so there is no out of pocket cost for you.

Participants are receiving explanation of benefits (EOB) documentation from our health plan provider. What does this mean? *(Note – this is only applicable to implementations where the program is being billed as a medical claim.)*

Wondr is covered 100% by the sponsored health plan so there is no out of pocket cost for individuals enrolled in the program. An EOB is a statement provided by the health plan explaining what services were provided and paid for as part of an individual's health plan, this is not a bill. Wondr Health will never bill individuals for participation in the program.
