

When you need care quickly

Knowing where to go can save you time and money

When you need care right away, the emergency room (ER) might be the first place that comes to your mind. However, the ER may not be the best choice in every situation. You have options when you have a sudden need for care, and knowing what they are can help you save time and money — and feel better sooner.

Where to go for care

Going to the ER or calling 911 is always your best option for emergencies. If it's not an emergency, you can see your primary care physician (PCP), have a virtual visit with a doctor, or go to a retail health clinic or urgent care center. This chart compares those options:¹

PCP	Virtual care	Retail health clinic	Urgent care center	Emergency room
Usually available during normal business hours and may also provide medical advice by phone after hours	24/7 access to doctors through the Sydney Health SM app, no appointment needed	Walk-in care clinics located in certain drugstores and major retailers	Stand-alone facilities, open extended hours	Stand-alone facilities or part of hospitals, open 24/7
