Cancer insurance

If you're diagnosed with cancer, the last thing you need to think about is the cost. Cancer insurance helps ease the financial burden.

Every year, more and more people are diagnosed with cancer. Unfortunately, in addition to bearing the physical and emotional toll of this disease, patients are often saddled with added financial expenses.

Who is it for?

Cancer insurance is for people who want added financial protection, in addition to their regular health insurance. It comes into play if you are diagnosed with cancer—providing additional financial support to help keep the focus on your cancer treatment and recovery.

What does it cover?

Cancer insurance benefits can help you handle medical plan deductibles, co-pays and other out-of-pocket costs by providing benefits when you receive radiation or chemotherapy treatment, or are hospitalized for surgery to treat cancer. These benefits can be used for non-medical expenses such as transportation to treatment facilities, and even everyday living expenses like groceries, rent, and mortgage payments.

Why should I consider it?

Health coverage may become more expensive, with higher co-pays, premiums, and deductibles. The unexpected out-of-pocket expenses of cancer recovery, including transportation, co-pays, and deductibles, can add up fast. What's more, some of the costs you may incur during recovery are non-medical, such as covering a mortgage, childcare, and household expenses. Cancer insurance can help you pay for all of them.

Plus, cancer insurance is portable and payments are made directly to you.

You will receive these benefits if you meet the conditions listed in the policy.

Extra support

Sarah's diagnosed with kidney cancer after a screening test and decides to undergo kidney removal surgery.

Average surgical expense: **\$25,000**

Average Major Medical deductible: **\$1,500**

Major Medical covers 80% of the surgical cost after the deductible is met, but Sarah's still responsible for 20%: **\$4,700**

Total out-of-pocket amount for Sarah (deductible + coinsurance): **\$6,200**

Sarah has Guardian's Cancer Advantage policy, which pays her **\$2,500** as an initial diagnosis benefit and **\$2,100** for a 7-day hospital stay.

This gives her a total of **\$4,600** to help cover a portion of her out-of-pocket amount.
