# family plans

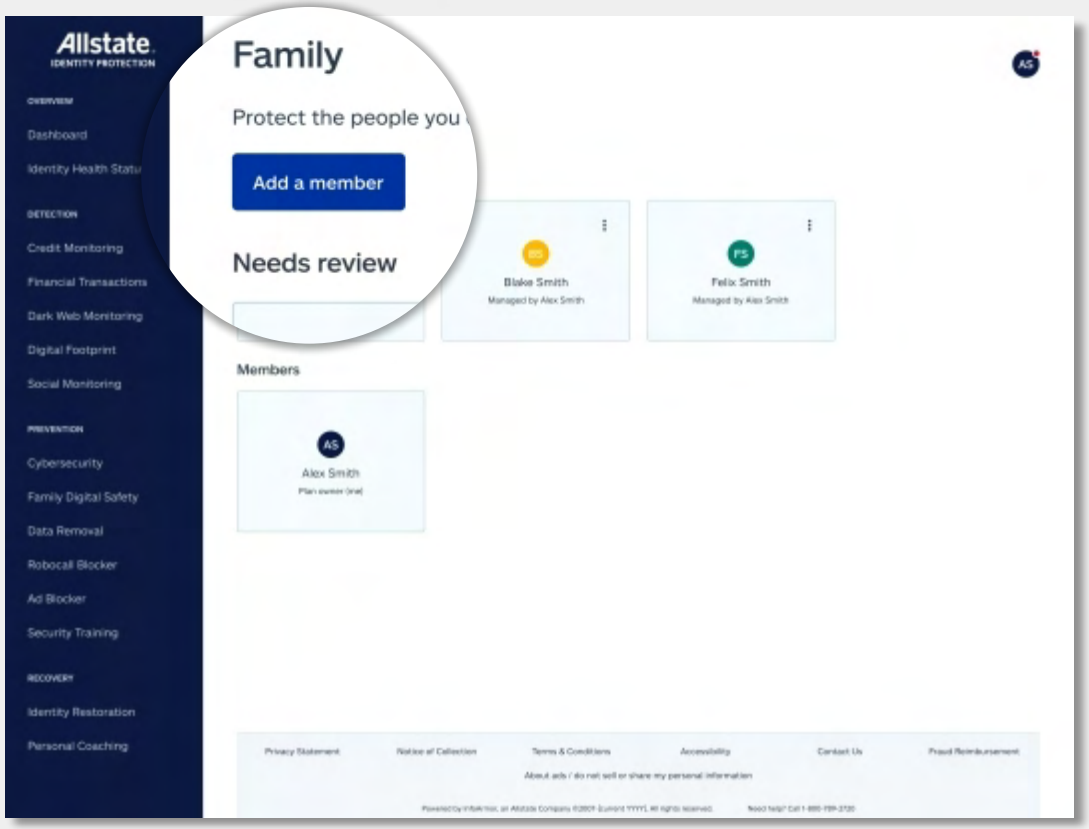

With a family plan, you can add anyone under your roof or your wallet (meaning anyone who lives with you or is financially dependent on you). You can also add any family member 65 or older, regardless of where they live or their financial ties to you. All family members must reside in the U.S. and have a valid Social Security number.

# add or manage your family

Click the “View Family” button on your account dashboard or click your profile icon with your initials in the top right corner and select “Family.”

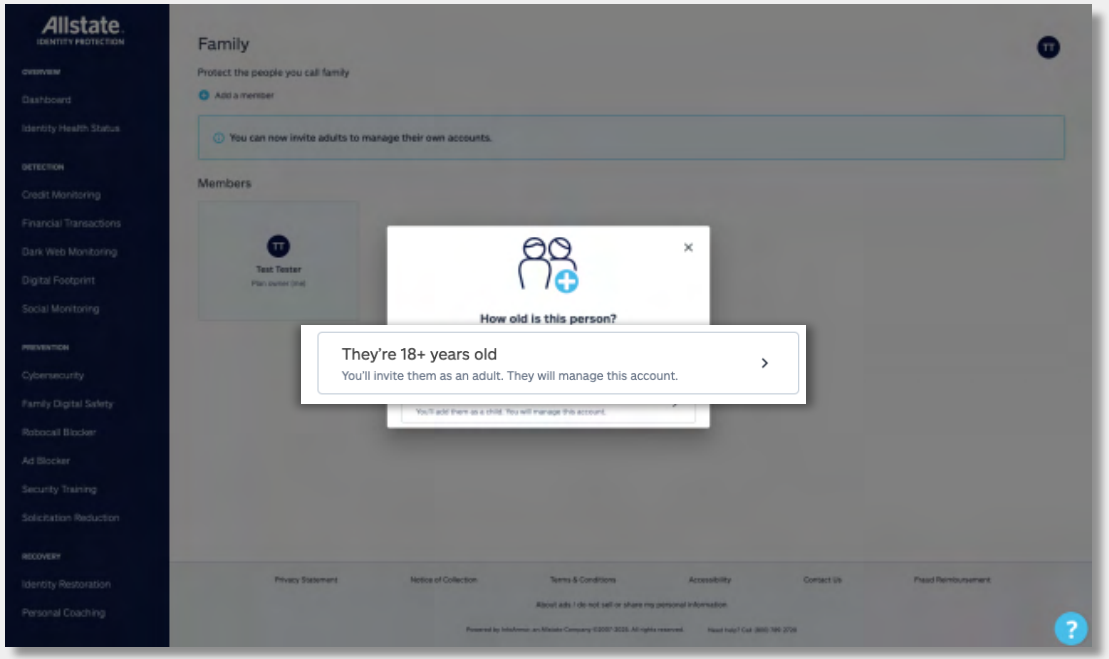

To add a new family member, click “Add a member.” To view an existing family member, click their name under “Members.”

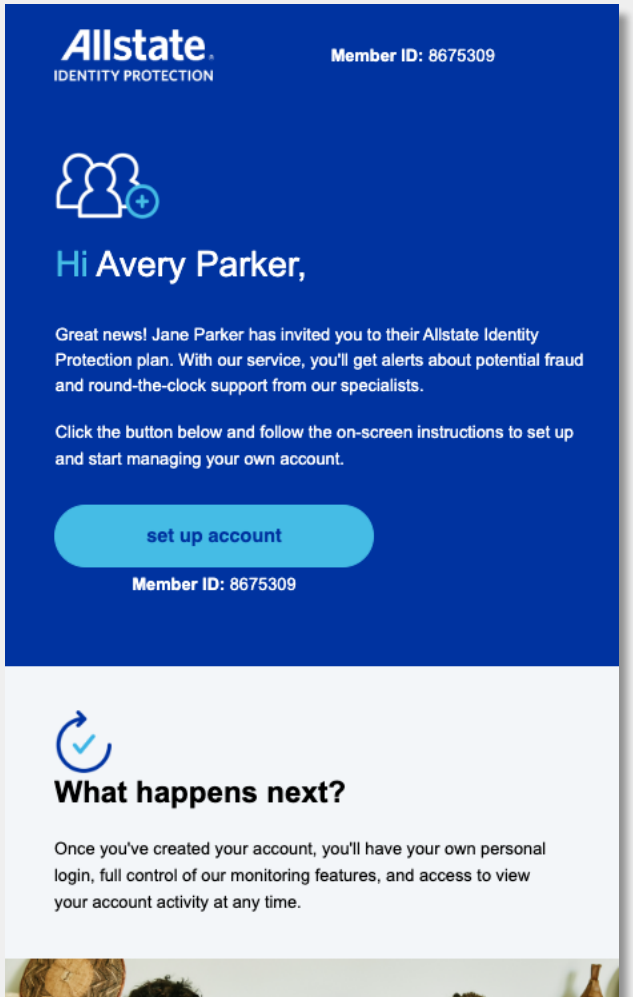

# add adult family members

Once you click the "Add a member" button, select "They're 18+ years old" and enter their details to send them an invitation.

The invited family member will receive an email notification that they've been added to your plan and will need to complete their own account activation.

# add minor family members

Once you click the "Add a member" button, select "They’re younger than 18" and enter their details.
Going forward, you'll manage their account, receiving alerts and viewing activity directly in your portal.
