Aetna Signature Administrators®

Finding a doctor or other health care professional is an important part of staying healthy. Our online directory helps make it simpler. It offers you up-to-date information about providers — and it's available online, anytime.

Provider details

To visit our online directory, simply go to **Aetna.com/asa** and begin searching for a doctor using your location — ZIP, city, county or state. You can use either the general or category search to see provider details that typically include:

- Board certification
- Hospital affiliation
- Medical school/year of graduation
- Gender
- Website address (if available)
- Specialties
- Languages spoken

You can also see additional provider information that can include: participation information,* other office locations, whether they're accepting new patients, maps, driving directions and more.

Additional features

You'll be able to find specialty care, too, by searching for a provider based on a condition like heart attack or MRI.

Narrowing your search

Want to refine your search even further? Multiple options are available. You can easily:

- Filter by provider characteristics — such as:
  - Specialty
  - Languages spoken
  - Gender
  - Board certification
  - Hospital affiliation
  - Accepting new patients
  - Performance — high quality, cost-efficient care through Institutes of Excellence™ (IOE), Institutes of Quality® (IOQ) and Gene-Based, Cellular and Other Innovative Therapies™ (GCIT) facilities.
- Expand or reduce the geographic radius of your results
- Sort by best matched or distance
- View a map to see the locations of results and get driving directions
- Print results

If you wish to view additional information about providers, detail pages are available (on selected providers).

* Although listed, Sutter Health facilities and providers in Northern California may not be in network for all plans. Be sure to check with your human resources representative or call the number on the back of your ID card before making an appointment or being treated.
