

## DID YOU KNOW?

In 2024, there were 181,464 prescriptions filled by FBISD employees and dependents. Only 3.7% were filled through mail order.

The Fort Bend ISD prescription benefit plan offers **Maintenance Choice®**, a program which gives employees the option to pick up or get delivery of 90-day supplies of the medication they take regularly (for things like diabetes, high blood pressure, asthma, etc.) at select participating pharmacies.

Maintenance Choice helps **keep employees' medication as affordable as possible.**

- **Kelsey UHC Charter Plan** covers a 90-supply prescription at a **coinsurance amount not to exceed \$150.**
- **Surest Plan** covers a 90-day supply prescription at a **coinsurance amount not to exceed \$150.**
- **Choice HSA Plan** covers a 90-day supply prescription at a **deductible and coinsurance amount not to exceed \$150.**

Employees can **save money when they fill a 90-day supply prescription** through mail order or at one of the **maintenance choice network pharmacies (CVS, Kroger, Costco).**

### How do we increase utilization?

#### **Employee Education Campaign**

- **CVS Caremark targeted mailings** to individuals taking maintenance medications
- 90-day benefit referenced in **Summer Key Reminders** email
- Notification via **LiveWell App** with link to educational tools & resources
