WOMEN'S HEALTH

MENOPAUSE

WHY HAS EDISON ADDED **MENOPAUSE COVERAGE**?

We have seen an increase in inappropriate care for women who are experiencing perimenopause and menopause symptoms. Treatment is ranging from under-treatment with symptoms often being dismissed to an influx of treatments that are not evidence-based and are often costly.

As women face their menopause journey, they often have numerous questions and face conflicting opinions about the best treatment to manage their menopause symptoms. Each woman's experience is unique and we believe they should receive personalized care to manage their menopause symptoms.

WHAT DOES EDISON **OFFER YOU**?

Our physicians are menopause certified and have substantial expertise in this area. Our physicians are committed to improving women's health during their menopause transition. They do this through a focus on appropriate care and individualized comprehensive care plans.

WHAT WILL A VISIT **COVER**?

Members will first meet virtually with our expert women's health physicians. Our physicians provide a thorough consultation aimed at equipping women with the knowledge and treatment recommendations they need to navigate menopause effectively.
