Elect your benefits between October XX–XX.

- Make your enrollment decisions including any FSA or HSA contribution elections.

We are also making changes to some of your benefits for 20XX. Our population has never been more diverse and we believe that diversity and inclusion are essential parts of who we are as an organization. We are modernizing our benefits to meet your unique needs at whatever life stage you are in.

In addition to some benefit changes, we are also introducing health insurance premiums that are based on your salary at the time of enrollment. As a company, we are committed to providing benefits

that our employees value as health care costs continue to increase nationwide. While this may mean an increase or decrease in

contribution costs for some employees, we are still competitive in our benefit costs and Unisys continues to pay a significant portion of the costs of our programs, absorbing a 6.5% annual market increase so that the majority of associates will see medical premiums stay flat going into 20XX.
