

A tailored health checkup made just for

YOU

Zero-cost to you

Enjoy a health checkup at no charge – Your wellness, our commitment!

Super-convenient

Healthcare made easy – at your doorstep, on your schedule!

Virtually painless

Effortless health checkups – Easy, comfort and care combined!

What is a VirtualCheckup® Home Kit?

A VirtualCheckup Home Kit is an easy to use at-home health checkup. It can help identify any currently undiscovered health issues, assess key health risks you might be facing, and also support you in managing known conditions more effectively.

Why you need a checkup?

“Why not?” A health checkup helps you understand your current health status, identify any potential health issues early, and get advice on how to stay healthy. It’s a key step in taking care of yourself and ensuring a healthier future.
