

Healthier made easier.

 | **HealthHUB™**

Health care closer to home

Your employees need reliable care that's close to where they live and work. That's where CVS® HealthHUB™ locations come in. They make it easier to get the care and guidance your employees may need, when they need it.

This means:

- Coverage for a broad range of services, including certain chronic care conditions
- A professional care team that can help your employees stay on track in between doctors' appointments
- Available 7 days a week, nights and weekends, with online scheduling available

34.03.114.1 (4/21)

Consumer-centric, connected care

CVS HealthHUB can help make it easier for your employees to proactively manage their health in a way that fits their lifestyle.

Convenient

Easy-to-access health services, 7 days a week.

Accessible

Quality professional care, right near home.

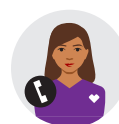

Complete patient view

Connected data helps provide the right action, at the right time.

There to support your employees

Your employees will have access to an integrated team to help them on their path to better health:

Care concierge

Guides your employees every step of the way, helping them navigate in-store services, as well as resources from service providers.

Expanded pharmacist role

Helps close gaps in care for members, including one-on-one health interventions and counseling to help your employees better manage their health.

MinuteClinic® providers

The MinuteClinic embedded in the CVS HealthHUB consists of nurse practitioners, physician assistants, and licensed practical nurses who provide medical services to help people on their path to better health.

CVS® HealthHUB™ offers all the standard MinuteClinic® services, plus much more.

Expanded MinuteClinic services*

Nurse practitioners and physician assistants are certified to provide a wider array of services for adults and children 18 months and older.

- Screening assessment, treatment and monitoring
 - Obstructive sleep apnea
 - Diabetes services, including diabetic retinopathy screening and imaging**
 - Asthma and chronic obstructive pulmonary disease (COPD)
 - Heart failure assessment and monitoring for patients with a history of congestive heart failure
- Colorectal risk assessment
- Pelvic exams, STI testing and more
- In-clinic lab and testing (where available)

Standard MinuteClinic offerings

- Treatment for minor illnesses, injuries and skin conditions
- Wellness and physicals
- Screenings and monitoring
- Vaccinations and injections
- Travel health
- Women's and men's health services
