WHAT DOES IT MEAN TO BE DISABLED?

With respect to Shareholder or Shareholder Track Physicians electing option A: Typically, disability means that you cannot perform one or more of the essential duties of your occupation due to injury, sickness, pregnancy or other medical condition covered by the insurance, and as a result, your current monthly earnings are less than 80% of your pre-disability earnings.

If you are a physician, your occupation means the general or sub-specialty in which you are practicing for which a specialty or sub-specialty is recognized by the American Board of Medical Specialties. If the sub-specialty in which you are practicing is not recognized by the American Board of Medical Specialties, you will be considered practicing in the general specialty category.

With respect to Shareholder or Shareholder Track Physicians electing option B: Typically, disability means that you cannot perform one or more of the essential duties of your occupation due to injury, sickness, pregnancy or other medical condition covered by the insurance, and as a result, your current monthly earnings are less than 80% of your pre-disability earnings. Once you have been disabled for 3 years

following the elimination period, you must be prevented from performing one or more of the essential duties of any occupation and as a result, your current monthly earnings are less than or equal to 60% of your pre-disability earnings.

Pre-disability earnings are defined in your policy.

WHEN DOES MY BENEFIT BECOME PAYABLE?

You must be disabled for 180 days before the benefit becomes payable. This is referred to as your elimination period.

HOW LONG WILL I RECEIVE BENEFITS?

If you become disabled prior to age 62, benefits may continue for as long as you remain disabled or until the greater of age 65 or 3.5 years. If your disability occurs at age 62 or above, the number of payments may reduce.

CAN I WORK AND RECEIVE A BENEFIT?

Yes. If you meet the definition of disability, but continue to work and earn less than 80% of your pre-disability earnings, you are still eligible to receive a benefit. Your benefit may be reduced by your work earnings. The total of your weekly benefit payment, current work earnings and other income benefits cannot exceed 100% of your weekly pre-disability earnings.

CAN I PROTECT MY BENEFIT IF I AM DIAGNOSED WITH A PROGRESSIVE ILLNESS?

Yes, the progressive illness benefit is designed to protect your benefit level should your income slowly decrease due to a progressive illness. With this benefit, your income when the condition is first reported to The Hartford or your current income at the time of a disability claim, whichever is higher, will be considered your pre-disability earnings.

IF I HAVE AN ACCIDENTAL DISMEMBERMENT OR LOSE SIGHT, WILL I RECEIVE MY BENEFIT?

Yes, your benefit will be paid for a specific duration for losses due to an accident. This benefit is paid regardless of working status or receipt of any other income as a result of the disability. Should you die while monthly benefits from this benefit remain, the unpaid benefits would be payable to the claimant's estate.
