

Considering surgery this year? Carrum Health can help.

If you need surgery this year, Carrum Health can help you access leading surgeons for significantly less cost. But top surgeons book up fast, so don't wait. Contact us today to get the process started.

With Carrum Health, you'll also have a personal care specialist to assist with all the planning, paperwork, and details. Plus, you'll enjoy significant savings—some members have even saved thousands on their care.

Those eligible for the Carrum Health benefit include teammates, COBRA participants, and covered dependents (18+) enrolled in a WellSky medical plan.

Your benefit covers a variety of procedures, including knee, hip, shoulder, spine, heart, and weight loss surgeries, cancer care, and more.

Important note: It is required for members enrolled in the WellSky medical plan to go through Carrum Health for total hip/knee replacements, bariatric weight loss surgery, and certain spine procedures. Your surgery will not be covered by your medical plan if you get one of these surgeries outside of Carrum.

Tips: Some procedures take longer than others to schedule. If you need care completed this year, get the process started as soon as possible. Also, if you're planning for care in 2025, make sure you're enrolled in an eligible primary medical plan.
