

Locate An In-Network Medical Or Mental Health Provider

Looking for a Provider?

You can look for a medical or behavioral health provider, facility, lab, etc.

1

Go to www.anthem.com/ca/find-care

Search under “**Use Member ID for Basic Search**”

Type “**KZU**” (the first three letters of your membership ID on your card to search in your correct network).

A screenshot of the search interface. At the top is a magnifying glass icon. Below it is the heading "Use Member ID for Basic Search". Underneath is the text "Find doctors, hospitals and more near you." followed by "Search your medical plan without logging in. ?". A search input field contains the text "KZU" and is circled in red. To the right of the input field is a blue "Search" button.

Both the PPO and EPO utilize the “**Prudent Buyer EPO/PPO**” network for in-network providers and facilities.

2

This will take you to the next screen where you can search for in-network care.

A screenshot of the "Find Care" search interface. The title "Find Care" is at the top. Below it are two search input fields, both circled in red. The first field is labeled "City, County, or ZIP" and the second is labeled "Search by doctor (name or specialty), hospi...". Below these fields is a blue button with the text "寻找护理". At the bottom, there is a notification bar that says "Find a testing center near you with our COVID-19 Test Site Finder" and a "Change Plan" link.

For mental health services, select **Behavioral Health**.

If you are out-of-state, type your City and State to find care.

Or, you can also go back to Anthem's home page and search as a guest. Select 'Medical Plan' as your type of plan, Select your 'State', Select 'Medical (Employer-Sponsored)' as how you get health insurance, and Select the 'National PPO (BlueCard PPO)' network.
